

Sublime

Do you place the highest comfort demands on the personal protective equipment you or your people use? Then choose the Sublime label.

The goggles offer a perfect field of vision and indirect ventilation that is often very welcome in hot or humid conditions. With an optical clarity class 1, wearing comfort is assured. Both masks are lightweight, very comfortable and easy to use and work with the industry's leading filters that protect the wearer from a variety of substances or vapours. The spray overall is the ideal protection against water and chemicals, just like the boots that, thanks to the Nitrile and polymer-enhanced PVC composition. We selected two spray gloves for different uses, both have a good fit and depending on your environment you choose a certain liquid tightness and chemical resistance.

Safety glasses 52.10.2890.01

With these glasses you have a perfect field of vision. The indirect ventilation provides a pleasant air circulation, comfort and less condensation in hot or humid conditions. These glasses have optical clarity class 1 which means that these glasses can be worn comfortably for a long time.

Half face mask 20.10.6002

The 3M reusable half mask is economical, easy to maintain, easy to install use and very lightweight. Main harness with support structure for comfortable fit.
